Punk rock boys and girls behold, the **ACCELERATORS'** self titled debut album! These Rotterdudes have teamed up with the friendly folks at **Stardumb** and **Squinty Joe Records** to let that Rotterdam Punk Rock City #1 sound reign.

In the past six years **Ox Accelerator**, **Erik A.C.**, **Marlon Stringlayer** (who was the youngest (13) guitarist to play the Lowlands Festival) and **Sander Wander**:

- Released five E.P.'s
- Played over 250 shows in over ten countries
- Were the 2nd punk rock band ever to make it to Morocco (**The Exploited** were first, beat our bastards to it).
- Are playing 6 (instore) shows in one day on 14 March 2009

How many people danced & sang along to their tunes is unknown.

But anyway, after six years of rocking out the punk the **Accelerators** got around to recording their first full length. And here it is: 12 tracks of pure scorching and blistering sonic pop punk rock bliss on both 12" vinyl and CD. Recorded at the **Excess Studios** in their hometown by Holland's most talented punk rock producer **Simon Speechless** and mixed in the far away United States by **Justin Perkins (Screaching Weasel, Riverdales, Leftovers)** of **Butch Vig's Smart Studios**. Why I am telling you this? Well, so you know the sound's mother flipping booming!

To top it all of **Kepi (Groovie Ghoulies)** and **Dan Vapid (Riverdales, The Methadones)** take care of some vocals. Yeah, if you like the **Ramones**, the **Dwarves**, **Rancid** and **Screaching Weasel**, this album is exactly your size! Fits you like a motorcycle glove, baby...
